Education

University of Texas at Arlington

Arlington, TX

B.S. in Computer Science, Minor in Business

Expected May 2028

- GPA: 3.84/4.0 | Coursework: Data Structures and Algorithms, Object-Oriented Programming, Databases, Discrete Structures.

Experience

Visionet Systems

Cranbury, NJ

IT Software Engineer Intern

June 2026 - Present

- Support production software engineering work under a senior engineer, including debugging workflows, code reviews, issue investigation, and practical fixes across an existing codebase.

Premier Soccer Services

Katy, TX

Software Engineer Intern

September 2025 - May 2026

- Built a production tournament bracket system with Python, Flask, PostgreSQL, and Pandas for 200+ teams, automating match generation, score tracking, standings, and outcome analysis.
- Developed a workforce coordination dashboard with React, TypeScript, Tailwind CSS, and Supabase to manage 50+ workers, assignments, lodging, and event logistics.

TLT - Tomorrow's Leaders Today

Richardson, TX

Software Engineer Intern

May 2025 - Aug 2026

- Engineered a full-stack grant discovery platform with Next.js, Tailwind CSS, SQLite, and Prisma, helping nonprofit users search funding opportunities and simplify application planning.
- Translated stakeholder requirements from recurring meetings into wireframes, UI flows, and implementation tasks aligned with client goals and delivery deadlines.

Projects

Peak | Next.js, React, TypeScript, Supabase, Electron

GitHub

- Built and deployed a full-stack service platform supporting 100+ paid clients and a 600+ member Discord community, combining booking, admin workflows, and software delivery.
- Managed customer-facing service features and software delivery workflows with an emphasis on communication, reliability, and usability.

Open Source Contributions | Next.js, Playwright, GitHub Actions, Python

PR

- Opened multiple third-party PRs that fixed bugs, improved automated checks, and tested scoring, export, date parsing, and link handling behavior in existing codebases.

Technical Skills

Languages & Tools: JavaScript, TypeScript, Python, Java, C++, C#, SQL, Git, GitHub, Postman, Linux, VS Code

Web: HTML, CSS, React, Next.js, Flask, REST APIs, Tailwind CSS

Databases & Storage: PostgreSQL, MySQL, SQLite, Supabase, MongoDB

Additional Strengths: Clear written and spoken communication, translating client requests into technical tasks, stakeholder collaboration, and user-friendly technical explanations
